PROJECTS

PERSONAL PORTFOLIO

HTML, CSS, jQuery / April 2020

- created a website portfolio from scratch with a focus on UI design and responsiveness

DEWIT APP

Flutter, Dart, Firebase / Summer 2020

- served as front-end developer in a team of three to build a productivity app with professional UI and fully-functioning checklists with time tracking capability

COMPUTER SCIENCE WEBSITE

HTML, CSS, JavaScript / Summer 2018

- designed and developed my first website as a coding capstone in high school
- discusses computer science and can be used for learning more about the discipline.

WECYCLE WEB LANDING

HTML, CSS, JavaScript / January 2020 - March 2020

- designed a landing page for a sustainability app with a sharp focus on SVG image creation, animation, and placement

WORK HISTORY

COURTESY CLERK

Kroger Co.

May 2016 - July 2017

- bagged groceries, took in carts, cleaned floors, and stocked miscellaneous products
- provided me with confidence and understanding in dealing with customers

TUTOR COMPANY EMPLOYEE

Kumon of New Albany

October 2016 - present

- assisted students with their daily academic work, increasing both their reading and math test scores
- proficient in the software used to enter student data

RESTAURANT EMPLOYEE

Eagles Pizza

July 2017 - present

- customer service experience: waited tables, worked the cash register, answered phones
- prepared food: rolled dough, added toppings, cooked and baked other foods

PRIVATE TUTOR

June 2018 - present

- tutored in math for a middle school student, providing me with one-on-one tutoring experience
